

RITE-WAY INSPECTION SERVICES

The Most Qualified & Experienced Inspectors In Town

Commercial & Residential Inspections
Since 1976

THE FIRST 100 ARE FREE!!

Are you representing the sale of a property that is a "WATER WASTER"? Leaky plumbing fixtures such as toilets, underground water supply lines, and more can waste thousands of gallons a month! Did you know that statistically the EPA estimates that at least 10% of all homes leak about 90 gallons of water per day or 2,700 gallons per month...that's a staggering 32,400 gallons per year of **WASTED WATER**, and we can't afford to waste a drop! The waste is bad enough, but it's also very costly.

Given our current **DROUGHT CRISIS** here in California, Rite-Way Inspections is now offering an added service that delves deeper into detecting obvious water wasting. Wouldn't you rather have your clients know this information up front so that what are typically simple items to repair can be taken care of before that big water bill hits them after they take occupancy? Or more importantly, wasting thousands of gallons of precious water when responsible Californians are doing their best to conserve water for the good of everyone that lives in this state?

There is a **WATER CRISIS** in our beautiful state, and with the lack of water, we all need to do our part. We will do ours but will you do yours? Please visit our website at www.ritewayinspections or have your clients call 530-389-9200 or 916-599-9946 to order their home inspection and make sure that they ask for the "**PREMIUM SERVICE PLAN**" and add the "**Water Wise**" Inspection.

A \$295 value added service—free for a limited time! Call our office for details.

Sincerely,
Scott DeWitz, Lori Schneider, Kevin Shearer & Jim Shuler
The Riteway Team
